

Savla Food & Cold Storage

About Us :

Savla Foods & Cold Storage is the Multi-Commodity modern concept of storage. As the name suggests, this type of cold storage is designed to store multiple commodities. Here, the cold storage is divided into multiple chambers. This facilitates product segregation and creates the right environment suited for the product. The segregation of the chambers allows the cold storage owner to store multiple products and take the benefit of the difference in seasons of the products.

Job Location : Turbhe

Designation : Warehouse Supervisor

Responsibilities

- **Inventory management:** Ensure that products are available and accessible when needed. This includes conducting stock takes and replenishing low levels.
- **Safety compliance:** Ensure that the warehouse is safe for employees and that safety protocols are followed. This includes enforcing the proper use of personal protective equipment (PPE).
- **Cold chain integrity:** Verify product temperatures and refrigeration operations to maintain the cold chain.
- **Shipping and receiving:** Oversee the shipping and receiving processes to ensure product integrity and order accuracy.
- **Facility security:** Ensure the facility is clean and secure, and monitor visitor access.
- **Staff management:** Manage workforce schedules, train employees, and monitor productivity.
- **Communication:** Coordinate with various stakeholders, including warehouse staff, other departments, and external partners.

Skills :

- Leadership** Lead a team and inspire effort
- Time management** Ensure the team is meeting deadlines
- Interpersonal communication** Effectively supervise and motivate warehouse staff
- Knowledge of warehouse operations** Ensure all warehouse processes are running smoothly and promptly
